

**“Natex Ltd” represents a producer of co<sub>2</sub> extracts (essential oil) in Georgia. Primary activity of firm is manufacturer of co<sub>2</sub> extracts from aromatic, medicinal raw materials, and also individual fragrant substances contain in co<sub>2</sub> extracts as the basic components.**

**co<sub>2</sub>-extracts are intended for use in perfumery-cosmetic, medical, beer-nonalcoholic, a confectionery, meat, a fishing industry and household chemical goods.**

**In perfumery-cosmetic industry co<sub>2</sub>-extracts are used as aromatizer and the biostimulators, received of dry vegetative and medicinal raw material and as well are used in biocreams, lotion, balm, elixirs, bioshampoos, colognes and perfume.**

**In medicine, application of co<sub>2</sub> extracts is defined by presence of some vitamins in extracts remarking the following: A, B, C, D, E and e.t.c.**

**At the present time the firm “NATEX Ltd” is situated in district Mtscheta in Georgia and has its own factory. At the present time we can produce 500-600 kg extracts in a year.**

**We need investment about 250-300 thousand USD.**

**This amount is necessary for us because we want to increase possibility of our factory till 3-4 ton in a year.**

**As the profit of our factory contains 50-60% of value, spent investment will be compensated less in 3-4 year.**
